Kindle Hopes

Rural China Schooling Sponsorship Project

Starting from 2003, the Chinese YMCA of Hong Kong and the Youngsterioes Development Service Center of the mainland government have been organizing a fund raising campaign iVcalled Kindle Hopes. Kindle Hopes is a rural China Schooling sponsorship project, which aims at raising money to fund childrenioes elementary education in Yunnan and Xinjiang province in the southwestern part of China.

In some of the remote parts of rural China, sending children to school is not a matter of course, but luxury. In light of this, we, through the campaign of Kindle Hopes, try to arouse sympathy of Hong Kong people to give donation as well as their caring support for those children in need.

Miss Ada Choi, a well-known artist in Hong Kong also gives her hand as our volunteer promotion star for the campaign, to help to boost further public concern for the rural China children.

**Please offer your helping hand.
Your donation, of whatever
amount, would help children
kindle their hopes.**
